

Nevada Women's History Project Presents: Dr. Karen Gedney - author of 30 Years Behind Bars

Do you believe that prisons work?

*Do you believe that true stories can be stranger
than fiction?*

Do you believe in revenge or justice?

Do you believe that people can change for better?

Come hear Dr. Karen Gedney, an internal medicine specialist, and now author, who spent almost thirty years behind bars as the State of Nevada's first woman prison doctor, narrate her journey of a naïve young prison physician who survived a world she is ill equipped for and turned it into a calling.
